CALL FOR PAPERS

Special Issue for

2016 International Workshop on Modern Optimization and Applications (MOA 2016)

The Journal of Global Optimization (JoGO) publishes carefully refereed papers that deal with all theoretical, computational, and applied aspects of global optimization. In addition to papers covering theory and algorithms of global optimization, JoGO also publishes important papers on numerical experiments and applications in engineering, management, and the sciences. JoGO decides to publish a special issue for MOA 2016, which took place in Beijing on June 27-29, 2016.

We cordially invite submissions of original research articles or survey papers on recent progress on global optimization and related areas to this special issue. Submissions from the participants of MOA 2016 are particularly welcome. All the submitted manuscripts will go through a standard JoGO peer-review process. The topics of the special issue include but not limited to:

- o Global Optimization in Big Data
- o Global Optimization in Networks
- o Global Optimization in Information Sciences
- o Global Optimization in Industry and Management
- o Integer and Combinatorial Optimization
- o Stochastic Optimization
- o Optimization Modeling

IMPORTANT DATES:

- Submission deadline: **January 15, 2017**
- Notification of acceptance: **July 30, 2017**
- Publication: the first issue of 2018

All papers should be prepared in the journal LaTex format and submitted to one of the following Guest Editors:

Prof. Thorsten Koch
Email: koch@zib.de
Department of Scientific Information
Zuse Institute Berlin
Germany

Dr. Ya-Feng Liu
Email: yafliu@lsec.cc.ac.cn
Academy of Mathematics and Systems Science
Chinese Academy of Sciences
China

Prof. Jiming Peng
Email: jopeng@uh.edu
Department of Industrial Engineering
University of Houston
U.S.A.
