报告题目:

**Second-Order Type Methods for
Composite Convex Programs**

邀请人: 刘歆 副研究员

报告时间: 2016 年 3 月 17 日 (周四)

下午 16:00~17:00

报告地点: 科技综合楼三层

311 报告厅

Abstract:

In this talk, we present a few second-order type methods for composite convex programs.

Numerical results are reported on a variety of problems, including compressive sensing, logistic regression, linear programming, quadratic programming and image denoising.
