## CALL FOR PAPERS

### Special Issue for

#### *2024 International Workshop on Modern Optimization and Applications (MOA 2024)*

The Journal of Global Optimization (JoGO) publishes carefully refereed papers that encompass theoretical, computational, and applied aspects of global optimization. In addition to papers covering theory and algorithms of global optimization, JoGO also publishes significant papers on numerical experiments, new testbeds, and applications in engineering, management, and the sciences. JoGO decides to publish a special issue for MOA 2024, which took place in Beijing on June 22-25, 2024.

We cordially invite submissions of [original research articles](#) or [survey papers](#) on recent progress on global optimization and related areas to this special issue. The issue only accepts the following two types of submissions: submissions from the (registered) participants of MOA 2024 and submissions invited by the editors. All the submitted manuscripts will go through a standard JoGO peer-review process. The topics of the special issue include but not limited to:

- Global Optimization in Big Data
- Global Optimization in Networks
- Global Optimization in Information Sciences
- Global Optimization in Industry and Management
- Integer and Combinatorial Optimization
- Stochastic Optimization
- Optimization Modeling

#### IMPORTANT DATES:

- Submission deadline: **December 31, 2024**
- Notification of acceptance: **July 30, 2025**
- Publication (estimated): the first issue of 2026

Please submit your manuscript via Editorial Manager: <https://www.editorialmanager.com/jogo/>. Select “Manuscript” in Article Type Selection. In Additional Information, select “Yes” to answer the question “Does this manuscript belong to a special issue?”, then select “S.I. : MOA 2024” from the list of special issues.
