计算数学所学术报告

报告人: **Dr. Wei Chen**

(微软亚洲研究院)

报告题目:

**An introduction to deep learning:
algorithm and theory**

邀请人: 刘歆 副研究员

报告时间: **2016 年 4 月 20 日 (周三)**

下午 14:00-15:00

报告地点: 科技综合楼三层

305 会议室

Abstract:

Nowadays, deep learning has been successfully applied in important areas of artificial intelligence, such as image/speech Recognition, natural language processing, robotics, etc. In this talk, I will introduce the widely-used deep learning models, popular training methods, and our recent theory work for deep learning. Finally, I will discuss the future theory research for deep learning.
